Subject: final schedule and revised talking points for Shaun - deliberative process - confidential - not for public release

Martin has agreed to a date of May 1st for last call. Christina, don't panic but he wants the AM talking points included just in case so it is on the second page. I won't send the AM talking points to DEQ unless it is signed . . .

I have attached Shaun's final schedule and sort of final talking points (not sure they will ever really be final ☺); also attached final agenda for update to Congressionals and county so you have these all in one place. Whew – missing Rebecca this week!
